Dear Sir/ Madam,

The Organizing Committee of State Level Science Exhibition would like to invite your esteemed school's children for State Level Science Exhibition on Innovative idea in science for societal application, being organized to commemorate the 20th Anniversary of Ellora Vigyan Mancha. The event details, general instructions, time-line and contact details are provided below.

Event Details

- District level Science Exhibition to be held on _____ at _____
- State level Science Exhibition to be held from 6-7th July 2024 at Indian Institute of Technology, Guwahati.

General instructions

- The exhibits in Science Exhibition may be a Project / Poster / Model.
- The exhibition shall be held at two stages – district and state, and in two levels – Group A – for students from Class VIII-X; Group B – for students of Class XI and XII. However, at district level, student teams from junior classes are welcome to participate in the exhibition, and may be duly encouraged.
- It is a team activity. Each participant team consists of two students and the students may be from same or different school.
- Interested teams must submit their entries through their school for district level exhibition only, using prescribed form – either online or offline along with an abstract of the project. However, participants of a district, where district level exhibition is not held for reasons beyond control, may be allowed to participate in the district level exhibition of the adjacent district.
- Two selected project / models / posters in each group from each district shall participate in the state level exhibition.
- Registration fees / Joining Fees - NIL
- Certificates / Awards / Mementos shall be given at each levels of competition.
- Both Working / non working model are welcome. However, low cost working models may be encouraged.
- In case of model, presentation should accompany one poster (Max size 22"x28") on working principle of the model.
- There is no specific subject and/or theme and may include Agriculture, Transport and communication, Health and Hygiene, Education, Environment, Conservation of resources, sustainable development or any topic that involves science and scientific temper.

- The food and stay arrangements for the outstation participants at the District level Exhibition are to be arranged by themselves. However, the food and stay arrangements of the outstation participants at the State level Exhibition shall be arranged by the Organizing Committee, alongwith reimbursement of to and fro sleeper class (2S) railway ticket.
- Judges Panel - The Judges Team includes prominent educationist / personality in relevant discipline.
